B & W Speed Enforcement Cameras

Police Chief Thomas Mahoney said "all changes mentioned in the meeting with City Attorney Carol Barron have been made to the contract; now is the time to ask any questions."

The Commission asked the following questions and Police Chief Mahoney answered.

Commissioner Dennis Miller

Q. Who decides how much the fine will be? A. State of Tennessee sets the fine at \$50.00

Q. How many cameras will the city have? A. One

Q. Does having a camera device mean you will reduce the number of officers, since the camera will be doing the radar part and officers will not have to? A. No not at all.

Commissioner Miller "My problem is we got a lot of citizens on fixed income, people working for minimum wage and this will hurt them. Police Chief Mahoney replied if they don't break the law they will not have anything to worry about. Commissioner Miller, "Who don't, who don't speed?"

Q. Can you adjust the camera? A. Yes

Q. Can it be used during the day and at night? A. Yes

Q. What's it run off of? A. It operates on three rechargeable batteries.

Q. Who is responsible for charging the batteries? A. Whoever brings it in after a shift will be charging them for next shift.

Q. Does the company have a lot of contracts? A. Yes

Commissioner Sam Redden

Q. Is the officer going to stay with camera or is it unmanned while officers are patrolling other areas? A. It does require an officer to be there, the company is paying for the officer.

Q. Does the city pay first and the company reimburse the city? If so what's the time frame of getting money back? A. The company sends the City the payment of citation funds and salary reimbursement once a month on the 10th.

Q. Will the violator be able to dispute the camera device as unconstitutional?  
A. No there will be actual eyes on the violator (manned device) unlike other devices where they are unmanned.

Q. Will we give grace or warning period? A. At the city limits they'll be a sign posted advising you of photo enforcement devices in use. We can do a trial period where cameras are set up not giving tickets but issuing warning notices.

Q. Can the city use unmarked vehicles or just patrol cars at device? A. We can use any vehicle.

Commissioner Robbie Davenport

Q. Will there be training, what kind of training and will it be reimbursed as well? A. Company provides and pays for any and all training.

Q. Will all officers be trained to use system? A. Yes

Q. Are you going to split the hours equally between officers? A. Yes first we will see how many are interested in using them, if all officers would like to use the system then the system will go on to schedule.

Questions from Mayor Doss

Q. If an officer leaves and the new officer would like to learn the system will there be training available for the new officer? A. Yes training will be done on as needed basis with no maintenance cost to city.

Q. With this contract can either party break it at any time with no cost or penalties? A. Yes that's correct

Mayor Doss "I would like to do a six month review if we decide to move forward tonight to see if the device is working for the city."

Commissioner Andy Beene

Q. Who determines the violator the camera or the officer manning it? A. The camera will get the info needed and the officer will review each case, tickets will be at officer's discretion.

A motion to enter into the revised contract with B & W with a six month review and the addition of the digital speed added was made by Commissioner Beene; 2<sup>nd</sup> by Mayor Doss. Motion carried 4-1 Commissioner Miller voting No
